

Plans from LIP - Portugal

- Person power (for now):
 - Antonio Onofre (?%) – academic
 - Ricardo Gonalo (40%) – senior researcher
 - Rob Cantrill (50%) – postdoc
- Others (past & future):
 - Emanuel Gouveia – Masters student, hopefully moving to PhD depending on funding situation etc
 - Susana Santos – participation in dilepton channel and now at the end of her PhD
 - Maybe more, but very uncertain at present
- Interested in Run-II dilepton $t\bar{t}H(bb)$ analysis
 - Started with MC studies looking at possible new interesting variables
