LIP contributions

- People involved (but need to understand plan better):
  - LIP: 1 PhD student (Luisa) 70% FTE
  - LIP/SFUM: 1 MSc student (Pedro Chaves) 70% FTE
  - 3 academics (Antonio, Ricardo) 30% FTE
- Interested in tasks:
  - CP analysis
  - Performance of new reconstruction
  - Data/MC comparison for new reconstruction and new MC
  - Statistical analysis
- Need to understand:
  - Intended timescale and data set – will Run-3 be included?
  - Main changes intended for analysis strategy
